Vehicle Condition

It runs and drives great. The exterior is in good shape but is missing two windows, one in the back and one in the front (shown in pictures), I have the other windows but need to put them back in. The tracks and tires are in good condition. The interior has a few blemishes. Mechanically I know of only one thing wrong. It has a minor oil or hydraulic fluid leak when climbing an incline. I've had to store it out of town which has prevented me from spending time restoring it or even using it. Only minor work needed to bring it up to dependable operating condition. Thanks for looking.
